Finishing

As a participant of the **AMA Sponsored Med Plus Advantage program** you've had the quality protection of group disability income insurance through your school or resident program. But when you finish, your coverage is scheduled to end. As a result of your participation in the program there are various options available to you. Some options, like the Essentials program, provide flexible premiums that allow you to purchase quality coverage now – at a more affordable cost.

Options available vary based on your individual circumstance and preferences.

To learn more about the options available to you, please contact us:
