

Take a look at your school's student group disability plan...

Are you being told your medical students need to purchased disability insurance upon graduating?

\$3,000

Does \$3000 income offset really mean what you think it does?

\$3,000

82% of medical students are over \$100,000 in debt.* Is your loan payoff benefit providing adequate coverage?

Medical students experience depression, burnout, and mental illness at a higher rate than the general population.** Does your group disability plan adequately address this fact?

1 → 2x

Could your student disability plan **DOUBLE** when it is needed most?

AMA-sponsored Med Plus Advantage Plan provides:

- Coverage until **August 31st** of final year of medical school
- **\$3,000** income offset without deducting forms of other income until threshold is exceeded
- Maximum Loan Payoff Benefit of **\$225,000**
- **24 month** mental/nervous and drug/alcohol benefits per occurrence
- Assisted Living Benefit is **equal** to the monthly benefit

Company Overview:

The Med Plus Advantage program sponsored by the American Medical Association was created in 1992 after student and resident AMA members voiced their concern to the AMA through a House of Delegates Resolution that existing disability income coverage fell short due to the unique dynamics associated with medical education. Med Plus Advantage was designed for—and is solely focused on—the needs of medical/allied health students and resident, resulting in the coverage you need.

Today roughly one in three medical students are covered by our program.
