Roughly one-third of residents suffer from depression or depressive symptoms.*

Help make sure your residents have access to confidential counseling when they need it. The Med Plus Advantage program continues to address the needs of residents with the Resident Assistance Service, available through the group long-term disability program.

Since the AMA-sponsored Med Plus Advantage program’s inception in 2006, mental disorders have been the #1 reason students and residents file claims with over 21% of claims due to mental disorders.

The Resident Assistance Service Includes:

- Confidential assistance for problems and work-life concerns, including crisis counseling
- 3 or 6 crisis counseling sessions with a local counselor
- 24/7 access by phone, online, live chat, email and text

Additional services:

- Professional help for depression, family or relationship issues, stress and anxiety, as well as financial and legal concerns
- In addition to the crisis counseling sessions, services include legal services, online will preparation and identity theft and fraud services

The Resident Assistance Service can be added as a service to your current Med Plus Advantage LTD plan.

The Resident Assistance Service is provided through an arrangement with Morneau Shepell, which is not affiliated with The Standard. Morneau Shepell is solely responsible for providing and administering the included service. The Resident Assistance Service is not an insurance product and is only available while insured under The Standard’s group policy.
